### Response to Notice - Correction Requested

Commissioner for Patents

The "Communication Regarding Rescission of Nonpublication Request and/or Notice of Foreign Filing" mailed November 19, 2003 (copy attached) contains erroneous statements that applicant would like to have corrected for the record.

The communication states "Applicant's rescission of the previously filed nonpublication request and/or notice of foreign filing is acknowledged." I am the applicant and I have never requested a rescission of the nonpublication request.

A brief chronology relating this application is as follows: Application 09/928/911 is a Continuation In Part of an application originally filed on 8/11/98. The filing receipt showing the acknowledgment of the non publication request is attached.

As the patent application was pending examination, applicant made several updates to the application over time.

- On 12/17/01 applicant provided substitute claims for those included with the original application.
- On 9/10/02 applicant provided an IDS and revised specifications that included 3 patents that had recently issued and were relevant to the application.
- On 8/7/03 applicant provided substitute black and white drawing to replace the color ones previously filed and replaced 3 pages of the specifications for a minor technical correction.

On 10/07/03 applicant received an office action from a preliminary examination of the application that determined there were three distinct inventions inherent in the application and applicant was instructed to restrict the application to one of the 3 inventions. In response to this office action applicant restricted the claims to Inhalable Chemotherapy for Lung Cancers on 10/25/03, filed a divisional application for "Inhalable Inhibitors of Inflammation in the Respiratory Tract" on 10/25/03, and filed a divisional application for "Inhalable Chemical Debridement for COPD" on 10/30/03. Both of the divisional applications also contained the non publication request and a copy of both are attached.

Applicant respectfully requests that the record be corrected to reflect that applicant has never rescinded the nonpublication request.

Very respectfully,

Mark Zamoyski

### Communication Regarding Rescission Of Nonpublication Request and/or Notice of Foreign Filing

Applicant's rescission of the previously-filed nonpublication request and/or notice of foreign filing is acknowledged. The paper has been reflected in the Patent and Trademark Office's (USPTO's) computer records so that the earliest possible projected publication date can be assigned.

The projected publication date is 02/26/2004.

If applicant rescinded the nonpublication request before or on the date of "foreign filing,"<sup>1</sup> then no notice of foreign filing is required.

If applicant foreign filed the application after filing the above application and before filing the rescission, and the rescission did not also include a notice of foreign filing, then a notice of foreign filing (not merely a rescission) is required to be filed within 45 days of the date of foreign filing. See 35 U.S.C. § 122(b)(2)(B)(iii), and Clarification of the United States Patent and Trademark Office's Interpretation of the Provisions of 35 U.S.C. § 122(b)(2)(B)(ii)-(iv), 1272 Off. Gaz. Pat. Office 22 (July 1, 2003).

If a notice of foreign filing is required and is not filed within 45 days of the date of foreign filing, then the application becomes abandoned pursuant to 35 U.S.C. § 122(b)(2)(B)(iii). In this situation, applicant should either file a petition to revive or notify the Office that the application is abandoned. See 37 CFR 1.137(f). Any such petition to revive will be forwarded to the Office of Petitions for a decision. Note that the filing of the petition will not operate to stay any period of reply that may be running against the application.

Questions regarding petitions to revive should be directed to the Office of Petitions at (703) 305-9282. Questions regarding publications of patent applications should be directed to the patent application publication hotline at (703) 605-4283 or by e-mail [pgpub@uspto.gov](mailto:pgpub@uspto.gov).

<sup>1</sup> Note, for purpose of this notice, that "foreign filing" means "filing an application directed to the same invention in another country, or under a multilateral international agreement, that requires publication of applications 18 months after filing".
